

SPRING 2016 - WEDDING PRICING

Photographs are one of the few elements of a wedding that will last beyond your big day. And, they often become priceless family heirlooms that are passed down and cherished for generations. For this reason, Parallel Photography offers a variety of photography packages so you can find the one that best fits your needs.

We keep our packages simple and offer most of our services as add-ons, so you pay for the services that you want rather than extras you don't really need.

Packages Start at 2,200 for 4 hours of coverage.

All Packages Include:

- Two photographers
- Online gallery to share with friends & family and purchase prints
- Bamboo* flash drive containing high-resolution digital photos
- Complementary pre-wedding services including a photo consultation, assistance with day-of-event photo schedule, and a portrait checklist to ensure you get the photos that are important to you.

* *Subject to availability*

Please inquire below for a detailed price sheet and to set up a free wedding consultation.
